

## JavaEE Internship Assignment-2

create table users

```
(  
  userid varchar(25) primary key,  
  pswd varchar(25) not null,  
  usertype varchar(12),  
  userstatus varchar(12) default 'active'  
);
```

create table userinfo

```
(  
  userid varchar(25) primary key,  
  name varchar(50),  
  email Varchar(50),  
  secque varchar(100),  
  answer varchar(25)  
);
```

create table jobs

```
(  
  jobid varchar(25) primary key,  
  userid varchar(25),  
  FOREIGN KEY(userid) references users(userid),
```

```
jobtitle varchar(35),  
skill varchar(20),  
education varchar(25),  
faculty varchar(35),  
pkg float,  
location varchar(50),  
description varchar(1000)  
);
```

```
create table applicants
```

```
(  
no int primary key auto_increment,  
jobid varchar(25),  
FOREIGN KEY(jobid) references jobs(jobid),  
userid varchar(25)  
);
```

```
create table resume
```

```
(  
userid varchar(25) primary key,  
resumename varchar(50)  
);
```
